**MAJOR INTERNATIONAL  
ECONOMIC DEVELOPMENTS  
DURING 2007**

## CHAPTER ONE

# MAJOR INTERNATIONAL ECONOMIC DEVELOPMENTS DURING 2007

The world economy witnessed a major rise in oil prices due to rises in demand and political instability in most oil producers of the Middle East countries. This led to a recede in international economic performance during 2007. As a result it recorded a growth rate of 5.2% compared with a growth rate of 5.4% in 2006. Moreover the world Gross Domestic Product growth was influenced by the growth decline in the United States economy, which dominates the world economy, recorded a recede from 2.9% during 2006 to 1.9% in 2007 due to the decline in industrial product, housing activity and the rise in oil prices. Also most economies of the industrial countries and countries of the EURO area registered a slowdown in economic performance in addition to Japan, while emerging economies such as China, India and the developing countries registered a distinguished performance by benefiting from basic goods prices rise. Although the rising growth in the emerging economies resulted in the appearance of inflationary pressures in the economies of these countries but was maintained within moderate rates.

The Sudanese economy was influenced by the current world economic developments, particularly with regards to the rise in oil prices. This led to the increases in oil earnings which contributed greatly to the public budget finance, and the increase in the petroleum exports volume, and the appreciation of the national currency value against other foreign currencies. This led to the increase in Gross Domestic Product growth rate from 9.3% in 2006 to 10.5% by the end of 2007.

Spite of the good performance of these indicators there were noticeable increases in inflation rates during the last quarter of 2007.

The following is a review of some economic indicators in the industrial and developing countries:

## 1. The Growth, Inflation, Unemployment Rates and Current Account Position in Major Industrial Countries:

The major industrial countries, as a whole, registered a decrease in their growth rate in 2007 compared with the growth rate in 2006. unemployment and inflation rates in addition to the current account deficits as a percentage to the Gross Domestic Product showed some improvement in these countries

Table (1.1) and Figure (1.1) show details of the developments in the respective indicators.

Table (1-1)  
Growth, Inflation, Unemployment Rates and  
Current Account Position in the Major Industrial Countries  
for the years 2006 and 2007

Country	Indicators	Growth Rate %		Inflation Rate %		Unemployment Rate %		Current A/C% of GDP	
		2006*	2007**	2006*	2007**	2006*	2007**	2006*	2007**
Major Industrial Countries		2.9	2.5	2.3	2.1	5.6	5.3	(1.4)	(1.3)

Figure (1-1)  
**Growth, Inflation and Unemployment Rates and  
 current account position in the Major Industrial Countries  
 for the year 2007**

The growth rate of the major industrial countries declined from 2.9% in 2006 to 2.5% in 2007. The inflation rates for these countries as a whole improved from 2.3% in 2006 to 2.1% in 2007, and the unemployment rate improved to 5.3% in 2007 compared with 5.6% in 2006, Also their current account deficit position as a percentage of GDP improved to 1.3% in 2007 compared with 1.4% in 2006.

## 2. Growth, Inflation Rates and Current Account position in the Developing Countries:

The growth rate of the Gross Domestic Product of the developing countries in Africa, and the Middle East increased from 5.6% to 5.7% and 5.9% respectively in 2007, while developing countries in Asia kept the same growth rate of 9.8% in 2006, and receded in south America countries from 5.5% in 2006 to 5.0% in 2007.

Table (1-2) and figure (1-2) show details of the mentioned indicators: -

### External Debt of Developing Countries:

The majority of developing countries met the conditions of the Heavily Indebted Poor Countries (HIPC) Initiative, and benefited from debt relief. This led to a decrease in debt and its services percentage to the Gross Domestic Product.

Table (1-3) shows details of the external debt and its services as percentage of GDP for the developing countries for the year 2006 and 2007.

## **5. The Fourteenth Meeting of the African Export Import Bank:**

These meetings were held in Acra -Ghana during (12th -15th September, 2007), with the participation of the most member countries.

The agenda of the Meeting were consist of Approval of the Minutes of the Thirteenth Meeting of the shareholders in addition to the following focal points.

- Discussion of the new headquarters location after the withdrawal of Egypt (The prior Host Country).
- Reappointment of the external auditor
- Amendment of the bank Treaty regarding selection and reselection of the chairperson.

The meetings were concluded by ratifying a number of financial and commercial agreements between the African Export Import Bank and a group of financial institutions in the region.

## **6. The Thirty first Annual Meeting of the Association of African Central Banks (AACB):**

The Thirty-First Meeting of the Association of African Central Banks was held during the period (13th -15th August, 2007) in Tripoli- Arab Jamaheria of Libya, with the participation of representatives of 33 African Central Banks besides representatives of a number of Regional and International Organizations.

The Association agreed through this meeting to establish a joint committee with African Union Commission to discuss the establishment of the three financial institutions of the African union (African Central Bank, African Monetary Fund, African Investment Bank). It is worth mentioning that the countries of the African Union have already approved the establishment of these financial institutions in the Treaty of the African Union. Nigeria shall host the central bank headquarter, Libya Investment Bank headquarter and Cameroon the African Monetary Fund headquarter.

The Meeting concluded with the selection of the governor of Libyan Central Bank as chairperson for the year 2007, and the Governor of Burundi Central Bank as vice-chairperson and the Governor of Mauritius, Tunisia, Ghana, Botswana and São Tomé and Príncipe.

On the sidelines of the Meeting the annual symposium was held under the title of the role of the credit institutions in finance of small projects to reduce poverty in Africa.

## **7. Meetings of the Thirty- First Ordinary Session of the Board of Governors of the Arab Central Banks and Monetary Authorities:**

These meetings were held in Damascus the capital of Syria, on the 11th of September, 2007, with the participation of the Governors of the Arab Central Banks and Monetary Authorities, the General Manager of the Arab Monetary Fund and representative of the International Monetary Fund, in addition to observers from the Regional and International Organizations. The Session concluded with a number of decisions among which were: -

- Election of the Governor of the Central Bank of Iraq as Chairperson for the Session and Governor of the Central Bank of Sudan as Vice-Chairperson.
- Approval of the report and recommendations of the Arab Committee for Banking Supervision including the recommendations of the working papers on the preparatory arrangements for implementing the second pillar of Basel II resolutions.
- Approval of the report and recommendations of the Arab Committee on Payment Systems.
- Invitation of the central banks and Arab Monetary Authorities to complete and update their data contained in the united statistical booklet with regards to payments reconciliation operations, which is to be issued in the nearest possible time.

## **8. The Joint Meetings of the World Bank and the International Monetary Fund:**

These meetings were held in Washington during 17th-22nd October 2007.

Among the most important issues handled were the challenges which confront the developing countries and which stands as an obstacle to achieve the millennium objectives, which include: -

- Problems of external debt and poverty
- Challenges confronted by the countries from the past- conflicts and wars.
- Finance problems and international financial sector challenges such as exchange rates, current account and inflation.
- Problems and risks, which confront the central banks.

After discussing all these issues, the meetings emphasized the necessity of helping the developing countries and improving investment environment in these countries to attract foreign direct investment.

## **9. The Twelfth Meeting of the Committee of Governors of the Central Banks of the COMESA Countries:**

These Meetings was organized in Tripoli- Arab Jamaheria of Libya during the period 5th -9th November 2007, with the participation of delegations of 14 COMESA Member States, beside the representatives of COMESA Clearing House, African Union and Association of African Central Banks, the Central Bank of Tanzania was participated as an observer.

The Executive Bureau was elected for the next session as follows: -

- |               |                         |
|---------------|-------------------------|
| - Libya       | chairperson             |
| - Madagashgar | vice-chairperson        |
| - Egypt       | second vice-chairperson |
| - Malawi      | first rapporteur        |
| - Sudan       | second rapporteur       |

During the meetings representatives of the central banks (Experts) reviewed reports about their countries position regarding the execution of the COMESA Monetary Harmonization Programme, also the meeting listened to reports from COMESA Clearing House about the progress in the regional payment system. It was explained that all required operational procedures of the programme were executed, and the commercial transactions expected to begin between the member states through this programme in the first quarter of 2008.

## **10. The twenty fourth annual meetings of the Inter-Governmental Organs and the Council of Ministers of the COMESA Countries:**

These meetings were convened in Lusaka- Zambia during the period (19th-27th November, 2007) with the participation of 14 countries of Member States, in addition to representatives of some international and regional organizations as well as representatives of COMESA organs and institutions.

These meetings were conducted at two levels:

**A: Meetings of the experts of Inter-Governmental Organs (19th -24th November 2007):**

These meetings discussed budgetary and administrative matters of the secretariat regarding employment and expenditure items in the budget, contributions payments position, plan and budget of COMESA for the year 2008. These meetings also discussed the performance of different COMESA institutions and the Regional Integration Programmes position.

**B: Meetings of COMESA Council of Ministers (25th-27th November 2007):**

These meetings discussed the report of the experts committee of Inter-Governmental Organs, which focused on the next stage of regional integration, and targeted end of 2008 for the application of the COMESA Customs Union. The meetings requested the member countries to quick the ratification of the COMESA free trade area.

**CHAPTER TWO**  
**CENTRAL BANK OF SUDAN**  
**POLICIES**

## CHAPTER TWO

# CENTRAL BANK OF SUDAN POLICIES

The Central Bank of Sudan Policies for the year 2007 were issued comprising the following four policy pillars namely: monetary and credit policy, foreign exchange policies, banking policies, currency issuance and management policies.

### First: Monetary and Credit Policy

#### 1. Objectives of the Policy:

The monetary and credit policy for the year 2007 – in coordination with fiscal and other related policies, were aimed to achieve the objectives of the macro economic policy, which were incarnated in: achieving 10% GDP growth rate, and 8% average inflation rate, through targeting a nominal growth rate of 24% in the money supply, and maintaining a stable and flexible exchange rate.

The Central Bank of Sudan during the year 2007 has effectively managed the liquidity in the economy by using the indirect monetary policy instruments, in a manner, which led to availability of adequate liquidity to meet the requirements of economic activity, as well as containing the inflationary pressures and maintaining economic stability.

With respect to the actual performance of the macroeconomic indicators for the year 2007, the average inflation rate reached 8.2% compared with the targeted rate of 8%, whereas, the real GDP growth rate recorded 10.5% compared with the targeted rate of 10%. The money supply growth rate reached 10.3% less than the targeted rate of 24%. The Central Bank of Sudan undertook some measures during the year 2007 to avail additional resources for the private sector, these measure could be summarized in the followings:

- Reduction of the legal reserve requirements from 13% to 11%, buying of Government Musharaka Certificates (GMCs) and Government Investment Certificates (GICs) from some Commercial banks for SDG 132.3 millions and depositing SDG 867.8 millions as investment deposits in other commercial banks to increase their loanable funds. The decrease in the growth rate of the money.

## 2. The Monetary Policy Instruments:

### a. Open Market Operations:

The policy focused on employing the government Sukouk as a tool of open market operations. These Sukouk were represented in: Government Musharaka Certificates (GMCs), Government Investment Certificates (GICs), Central Bank Ijarah Certificates (CICs). In addition to foreign currency swaps that were used in managing the liquidity during the year 2007.

### b. The Legal Reserve Requirements:

The monetary policy for the year 2007 initially directed the banks to maintain cash balances with the Central Bank of Sudan in the form of legal reserve requirement in local and foreign currencies of not less than 13% of the total deposits in the two currencies. In May 2007, the ratio of the legal reserve requirements was reduced to 11%, and the banks have given option to keep 8% as cash balances and 3% as central Bank Ijarah Certificates. The purpose of this amendment is to avail more resources for the banks to increase their loanable funds.

### c. Internal Liquidity Ratio:

The matter of determining the internal liquidity ratio was left to the banks, while taking into consideration the ratio of 10% as an indicator. The actual ratio of internal liquidity of the banks reached 18.5% on average at the end of December 2007 compared with 13.2% at the end of December 2006.

### d. Murabaha Profit Margins:

The Murabaha profit margin was fixed at 10% as an indicator. The weighted average for the Murabaha profit margins ranged between 11.4% and 12.6% and the monthly average ranged between 6.7% and 18% during the year 2007.

## 3. Inter-Banks Market:

This market is still inactive and ineffective in the management of the liquidity in spite of the encouragement of the Central Bank of Sudan to the operating banks to maintain deposits and finance in local and foreign currencies in addition to sale and purchase of financial papers among them.

#### 4. Financing Banks from the Central Bank of Sudan:

Central Bank of Sudan continued to perform its role “as the Lender of Last Resort” to the banks during the year 2007 through the finance windows mainly through investment deposits in some banks and purchase of financial papers from others to overcome their liquidity shortages during the second half of 2007, in addition to the extension of finance to bridge their seasonal finance gaps via the investment window.

#### 5. Other Measures and Regulations:

The measures and regulations specified in the central bank’s policy for the year 2007 helped in increasing the finance extended from the banks to the private sector by 16.4% in the year 2007. This was attributed to the increase in the resources of the banks as a result of the rise in banking deposits and capital and the introduction of new banks in the banking sector. The percentage of finance to total deposits increased from 90.5% by the end of December 2006 to 93.2% by the end of December 2007.

### Second: Foreign Exchange Policies

The foreign exchange policies for the year 2007; aimed at maintaining the stability of the exchange rate by adopting the managed floating exchange rate regime, enhancing the building up of foreign exchange reserves, and completing the unification, organization, and liberalization of the foreign exchange market.

The performance of the Foreign Exchange Policies for the year 2007 is as follows: -

A number of amendments have been undertaken in the foreign exchange regulations to ensure the existence of an effective policy as shown below: -

- Free accounts in foreign currency were allowed to be opened with transfer from abroad only, but their replenishment in cash, or exchange purchased from banks, foreign exchange bureaus, or transferred or paid from special accounts were not allowed.
- Prohibition of sales by exchange bureaus for import purposes only.
- Allowing Banks to sell cash to public within the limit of ten thousand US dollars or the equivalent in other foreign currencies.
- The receivable margins on the letter of credits have been cancelled, and Banks were allowed to decide the suitable ratio according to client’s creditability status.

- Central Bank of Sudan and the Government decided to shift from the US\$ to the other foreign currencies in all their transactions.
- To avoid any risk emanating from dealings in US\$, the Central Bank of Sudan advised the Banks and their clients to shift from using the US\$ to the other foreign currencies.
- Regarding the purchase of foreign currencies brought on foreign currency rates, the prior approval of the central bank was abolished, on condition that the foreign correspondent quoted should be a highly reputed world wide.
- The exchange rate of the Sudanese pound against the US\$ was stable during the year 2007, at 2.0248 pounds per dollar at the end of December 2006, compared with 2.0308 pounds per dollar at the end of December 2007.

### **Third: Banking Policy**

To complete the restructuring of the banking system and the financial institutions in the manner which achieves the safety and soundness of the banking system as well as building strong banking system to provide efficient services, the Central Bank of Sudan adopted the following policies during the year 2007: -

1. Restructuring of banks to strengthen and enhance their financial positions.
2. Launching the bank's merger program. The grouping of banks will be the first step in this program.
3. Continuing the privatization of the public sector banks.
4. Encouraging foreign investors to invest in the existing banks, instead of establishing new ones.
5. Continuing the licensing of the conventional banks, and the branches of foreign banks in the Southern Sudan.
6. Formulating the policies and working towards developing regulatory and supervisory tools, to finance small and medium enterprises.
7. Preparing the regulating laws of banks licensing and setting-up national rating agencies and credit information and evaluation companies.
8. Raising the efficiency of the control institutions to comply with the International Accounting Standards (IAS), the Accounting and Auditing Organization for

Islamic Financial Institutions (AAOIFI) and completing of the implementation of the Financial Sector Assessment Program (FSAP).

9. Upgrading the clients risk units within commercial banks.
10. Setting up the RTGs system, beside expanding the use of the Automated Teller's Machine (ATM), points of sales and uses of the electronic returns in all states.

The following is a review of the performance of the Banking and Supervision Policy for the year 2007: -

### **1. Banking Supervision and Development:**

- With the aims of enhancing and maintaining the safety and soundness of the banking system, the preparation and issuance of the rules and regulations governing the Islamic and Conventional banking business was completed, in addition to the development and activation of the procedures of corporate governance in the banks and financial institutions. In this context, the credit information agencies were formulated and the promotion of the Information Units in all banks to complete credit risk departments was done. Accordingly several directives were issued to enhance the functioning of those departments as regards the developments and the strengthening of the Banking System Risk Management Administrations. The year 2007 witnessed the development and the widening of the data base programme of clients credits and linking banks with the electronic database, and the concerned departments in the Central Bank of Sudan to receive the data electronically.
- Regarding the rules and regulations for the non financial institutions, the circular number 19/2007 dated 22/10/2007 was issued to branches of foreign companies and exchange bureaus to increase there paid-up capital and authorized capital, and for the exchange bureaus to keep insurance deposit in the Central Bank of Sudan and restructure their position during one year from the date of the circular.
- The Central Bank of Sudan Started to implement the Standard of Capital Adequacy Ratio (Basel II for the Islamic Bank) in the year 2006. In year 2007 in its effort to implement the strategic plan targets, the Central Bank continued rehabilitation of the banking environment in order to apply the requirements of this plan. These efforts were as follows:

- a. Requesting the technical mission of the International Monetary Fund during its visit in May 2007 to prepare a study about the position of the implement of Basel II standards, and the Standards of the Islamic Financial Serves (SIFS) board to present suggestions on how to facilitate the implementation.
- b. The Central Bank of Sudan formulated a committee to undertake and follow-up the implementation of Basel II standards in the Sudanese banks. The committee consisted of representatives from CBOS, commercial banks, deposits insurance fund and an audit house of expertise, to formulate policies and plans to facilitate the implementation process.
- c. A study and a survey were conducted for gap analysis evaluation as required by the risk management according to the questionnaire designed by the IMF mission.
- d. In consultation with the Islamic Financial Services Council, a workshop was organized for the staff of the commercial banks and the CBOS during the period 15-17/12/2007, under the title (Facilitating the Implementation of IFSB Standards). The workshop discussed the capital adequacy standards, disclosure and financial transparency standards.
- e. The start of capacity building for commercial banks' employees through organizing a number of workshops in some banks to help in understanding the requirements of Basel II standards.

CBOS adopted in 2007 a strategic plan for the development and growth of micro-finance as an instrument for addressing poverty issue, through the cooperation of the concerned units in the Government and the private sector with a number of different international and regional institutions.

Accordingly a micro-finance unit was established at the CBOS in March 2007.

The micro finance unit accessed the banks and the financial institutions to provide financing using the Musharka mode based on the following:

- a. The bank's or the financial institution's contribution should not be less than 50% of the musharka investment capital.
- b. To present a working program for the implementation of the micro finance projects.
- c. To present the organization and the management structure of each micro finance unit in every bank.

- d. To specify the branches implementing the micro finance projects.

According to the above mentioned prerequisites seven banks were chosen to undertake micro-finance, in addition to the social development institution. The micro-finance, until December 2007, was amounted 1.5 million SDG out of a total of 60 million SDG, which represents the amount of musharka credit determined between the banks and the micro-finance unit. Also in October 2007 a circular was issued directing the banks to apply the 12% specified for the micro-finance sector in the CBOS policy for 2007, whereas in November 2007 a draft was made discussing the alternate guarantees for micro-finance.

## **2. Restructuring and Reforming of the Banking Sector:**

A number of banks succeeded in meeting the specified requirements during 2007. Concerning the strengthening and reinforcing of the financial positions of the banks, 95% of them were able to increase their capital to 40 million SDG in accordance with the restructuring program in the next stage of 2007. Also the first stage began in which banking groupings were made, through the division of banks into six groups giving them the choice of switching from one group to another, also government ownership in the banking sector was reduced through privatization.

## **3. The Banking Technology:**

In terms of the domestically fostering the banking technology, the year 2007 witnessed the complete implementation of the targeted banking technology projects, including the National Payment Switch System (NPSS), the Electronic Clearing System (ECS) and the Electronic Reporting System (ERS). Also the branches working in the west side of the country were linked with the new banking system of the CBOS, and those working in the southern were linked with the unified banking network.

In addition to the above, a number of projects related to the banking technology were implemented which, include:

- a. Specifications and Standards:

The specifications regarding the banking payments tools were updated, and a plan was formulated for licensing banking technological projects and programs.

- b. Protection and Insurance:

The appropriate qualifications regarding insurance, protection and coding were requested and a plan has been formulated to implement the National Coding Scheme.

c. Standards for Development of the Banking System and Auditing its Implementation:

The international standards in this respect were specified and steps were taken to acquire them for the preparation of the relevant data bases.

d. The Electronic Cheque Clearing in the States:

The data was collected from different states regarding the amount of exchanged Cheques and the infrastructure and locations were chosen to start implementation of the project.

## Fourth: Currency Issuing Policies

The Central Bank of Sudan implemented Article (14-9) of the protocol of wealth sharing which emphasizes the commitment to the basic principles represented in the unity of the Central Bank of Sudan, the monetary authority, monetary policy, the currency and the role of the Central Bank of Sudan in maintaining economic stability. The Sudanese Pound was adopted instead of the Sudanese Dinar and other currencies circulated in the south. The first stage of replacement through banks started on 10/1/2007 until 31/5/2007. The second stage where the direct replacement of the old currency continued through certain centers from 1/6/2007 up to 30/6/ 2007. The replacement of the banknotes was completed successfully on 31/8/2007, where the coins replacement was completed on 31/12/2007, and the pound became the only legal tender currency.

CHAPTER THREE  
**MONEY SUPPLY**

## CHAPTER THREE

# MONEY SUPPLY

Money supply in its broad meaning (M2), consists of demand deposits, currency with the public and quasi money (margins on documentary letters of credit, margins on letters of guarantee, time deposits and investment deposits).

Table (3-1) and chart (3-1) presents the money supply and the factors affecting it for 2006 and 2007.

Table (3-1)  
**Money Supply and the Factors  
Affecting It for the years 2005 and 2006**

## Money Supply (M2):

The increase in money supply at the end of 2007 amounted to SDG 1,842.8 million, that is, by a growth rate of 10.3% compared to growth rate of 27.4% for the year 2006. This increase resulted from the rise in current payment instruments by SDG 850.5 million and quasi-money by SDG 992.3 million. The increase in current payment instruments was attributed to the increase in currency with the public and demand deposits by SDG 284.4 million and SDG 566.1 million respectively.

Chart (3-1)  
**Components of Money Supply  
 for the years 2006 and 2007**

## Factors Affecting Money Supply:

The main expansionary factors affecting the money supply were represented in the increase of the net domestic assets by 2,412.8 SDG million, and the increase in revaluation account by 120.4 SDG million. “This item represents net movements in the foreign assets and foreign liabilities when converted into local currency”.

On the other hand net foreign assets which consist mainly of the foreign assets less foreign liabilities of the banking system had a contractionary effect on the money supply amounted SDG 690.3 million, also other items net had a contractionary effect on the money supply amounted SDG 289.8 million

The reserve money consists of currency in circulation (currency with the public and cash with the commercial banks), commercial banks' reserves and demand deposits with the Central Bank of Sudan.

Table (3-2) shows reserve money and the corresponding assets during 2006 and 2007.

Chart (3-2) indicates the components of the reserve money as a percentage of total reserve money by the end of December 2007.

3. Current Deposits with the Central Bank of Sudan	401.6	337.7	(63.9)	(15.9)

Source: Central Bank of Sudan

\* Central Bank of Sudan Ijara Certificates.

The reserve money (monetary base) increased from SDG 7,815.5 million in 2006 to SDG 8,813.3 million in 2007, by 12.8%. This increase resulted from the rise in currency in circulation by SDG 551.0 million, and commercial banks' reserves with the Central Bank of Sudan by SDG 510.7 million. Demand deposits with the Central Bank of Sudan declined by SDG 63.9 million.

Chart (3-2)  
**Components of the Reserve Money  
 by the end of December 2007**

### Assets:

The main reason for the rise in assets corresponding to reserve money was the increase in net domestic assets from SDG 3,721.5 million in 2006 to SDG 5,398.7 million in 2007, by 45.1%, the increase in revaluation item from SDG 7,240.9 million in 2006 to SDG 7,471.6 million in 2007, by 3.2% despite the fall in the net foreign assets from a negative (-) 3,146.9 million in 2006 to a negative (-) SDG 4,057.1 million in 2007, by 28.9%. This increase in net domestic assets was caused by the substantial decrease in government deposits from SDG 392.6 million in 2006 to SDG 87.5 million in 2007, by 77.7%. Also, claims on the government increased from SDG 1,990.5 million in 2006 to SDG 2,680.1 million in 2007, by 34.6%. Claims on commercial banks and claims on public enterprises by 31.2% and -2.0% respectively. This in addition to the increase in the other items net of 58.4%.

### Liabilities:

Currency in circulation, which is among the main reasons for the increase in reserve money, rose from SDG 5,670.8 million in 2006 to SDG 6,221.8 million in 2007. This was attributed to the increases in currency with the public from SDG 5,355.3 million in 2006 to SDG 5,639.8 million in 2007 by 5.3%, currency with the commercial banks from SDG 315.5 million in 2006 to SDG 582.0 million in 2007 by 84.5%.

In addition, banks reserves with the Central Bank of Sudan rose from SDG 1,743.1 million in 2006 to SDG 2,253.8 million in 2007 by 29.3%. Also, demand deposits with the Central Bank of Sudan dropped from SDG 401.6 million in 2006 to SDG 337.7 million in 2007 by 15.9%.

### Money Multiplier and Velocity of Circulation:

The money multiplier<sup>1</sup> dropped from 2.287 in 2006 to 2.237 in 2007, the velocity of circulation<sup>2</sup>, increased from 4.477 in 2006 to 4.733 in 2007 based on a GDP of SDG 80,015,8 million and SDG 93,299,7 million for 2006 and 2007 respectively.

Table (3-3) and chart (3-3) show the money multiplier and velocity of circulation for the years 2002-2007.

Table (3-3)

CHAPTER FOUR  
**BANKS AND FINANCIAL  
INSTITUTIONS**

## CHAPTER FOUR

# BANKS AND FINANCIAL INSTITUTIONS

This Chapter throw lights on the performance of the banking system (Central Bank of Sudan and the operating banks) and the Other Financial Institutions which include: the Foreign Exchange Bureaus, Sudan Financial Services Co. Ltd., Banks Deposits Security Fund, Khartoum Stock Exchange, Insurance Market and the National Agency for the Insurance and Finance of Exports.

### **First: Banks:**

#### **1. The Central Bank of Sudan:**

The functions of the Central Bank of Sudan as per its amended Act for year (2006) article (6) can be summarized in the following : the issue of currency in different denominations; formulation of the monetary and credit policies; regulation, control, supervision, promotion and development of the banking business and enhancement of its efficiency in a manner that will achieve balanced economic and social development; pursuit of economic stability in addition to its role as the bank of the government, and advisory authority.

The branches of the central bank of Sudan remained at twelve, as in the year 2006.

Table (4-1) shows the Central Bank of Sudan balance sheet for the year 2006 and 2007.

## 1.1. The Central Bank of Sudan Balance Sheet:

As it can be observed from Table (4-1), assets (liabilities) of the Central Bank of Sudan increased from SDG 14,070.0 Million in 2006 to SDG 15,413.3 million in 2007 by 9.5%.

On the assets side, banknotes and banks balances declined from SDG 4,215.3 million in 2006 to SDG 3,468.8 million in 2007 by 17.7%. Loans and advances to banks rose from SDG 795.4 million in 2006 to SDG 940.1 million in 2007 by 18.2%.

The contribution in domestic banks capital and other contributions rose from SDG 242.2 million in 2006 to SDG 421.2 million in 2007, by 73.9%.

On the liabilities side, the Federal Government deposits decreased sharply from SDG 392.6 million in 2006 to SDG 87.5 million in 2007, by 77.7%. Deposits of state and local government and public enterprises dropped from SDG 201.6 million and SDG 193.1 million in 2006 to SDG 149.7 and SDG 181.0 million in 2007 by 25.7% and 6.3% respectively. Deposits of domestic banks rose from SDG 1,978.9 million in 2006 to SDG 2,870.8 million in 2007, by 45.1%.

## **2. Banks Operating in Sudan:**

The number of banks operating in Sudan totaled thirty two banks whose branches spread throughout the different States of Sudan. During 2007, Nile Bank and Kenya Bank joined the system of banks operating in Sudan.

Appendix (9) shows distribution of commercial banks branches all over the different states

### **2.1. The Consolidated Balance Sheet of Banks:**

On the liabilities side, federal government deposits decreased sharply from SDG 392.6 million in 2006 to SDG 87.5 million in 2007, by 77.7% deposits of states and local government and public enterprises dropped from SDG 149.7 and SDG 181.0 million in 2007 by 25.7% and 6.3% respectively.

\* includes the balance sheet of conventional banks operating in the south.

Table (4-2) above shows the consolidated balance sheet of banks as at the end of 2007 compared with 2006. Total assets (liabilities) of banks rose from SDG 23,144.3 million by the end of 2006 to SDG 26,197.4 by the end of 2007, by 13.2%.

On the assets side, the local currency rose from SDG 315.4 million in 2006 to SDG 582 million in 2007, by 84.5%. Balances with the Central Bank of Sudan rose from SDG 1,781.3 million in 2006 to SDG 2,353.6 million in 2007, by 32.1%.

On the other hand, total bank advances rose from SDG 11,139.6 million in 2006 to SDG 12,998.5 million in 2007, by 16.7%.

On the liabilities side, total bank deposits rose from SDG 12,308.6 million in 2006 to SDG 13,942.4 million in 2007, by 13.3%. Out of these, deposits of the public rose from SDG 10,087.6 million in 2006 to SDG 11,685.2 million in 2007 by 15.8%, whereas amounts due to the Central Bank of Sudan and the capital and reserves rose

from SDG 146.2 million and 3,890.9 in 2006 to SDG 389.6 million and SDG 4,606.9 million in 2007 by 166.5% and 18.4% respectively.

## Deposits in Local Currency

Total local currency deposits in the banks rose from SDG 9,918.7 million in 2006 to SDG 11,341.1 million in 2007, by 14.3%. As depicted by the table (4-3)-A. Deposits of the Federal and States Governments constituted 2.1%, and those of public enterprises and the private sector contributed by 9.5% and 88.4% of the total deposits respectively.

Table (4-3)-A

Southern States' Corporation	"" ""

Source: Bank of southern Sudan

The bank of Southern Sudan (BOSS) contributed substantially in supervising and guiding the conventional banks and the branches of the Islamic banks beside the nonbank financial institutions work in the south, in addition to that it supervised the successfully replacement of currency, i.e. the Sudanese Dinar and other currencies circulated in the south, and therefore enabled the economy of the Southern Sudan to enter in the macroeconomic system through the circulation of the Sudanese pound as one national currency.

## Second: Financial Institutions

### 1. Foreign Exchange Bureaus:

These are specialized private companies, which are considered as part of the non-bank financial institutions, because they render only a part of the banking services. The

number of these foreign exchange bureaus rose from seventeen in 2006 to Eighteen in 2007.

Table (4-10) shows the monthly total purchases and sales of the foreign exchange bureaus in 2007. The purchases of the foreign exchange bureaus declined from USD 2.6 billion in 2006 to USD 2.5 billion in 2007, by 3.8%. The total sales also declined from USD 2.6 billion in 2006 to USD 2.5 billion in 2007, by 3.8%.

Table (4-10)  
**Total Purchases and Sales of the Foreign Exchange Bureaus  
 during January – December 2007**

(US\$ millions)

Month	Purchases	Sales
January	295.7	298.2
February	273.4	274.1
March	312.9	313.9
April	272.9	272.6
May	281.5	278.7

December	175.1	174.0
<b>Total</b>	<b>2,536.9</b>	<b>2,537.2</b>

Source: Central Bank of Sudan.

## 2. Sudan Financial Services Company (SFS):

The Sudan Financial Services Company (SFS) was established in 1998 jointly by the Central Bank of Sudan and the Ministry of Finance and National Economy by virtue of its Act to operate in the area of issuing and marketing of Sukouks and Islamic Financial Papers.

The Company continued, during 2007, the setting up of auctions to sell and buy the Government Musharaka Certificates (GMCs), Government Investment Certificates (GICs) and the Central Bank of Sudan Ijarah Certificates (Shihab).

## Government Musharaka Certificates (GMCs):

The balance of the Government Musharka Certificates (GMCs) rose from 7,288,000 certificates by the end of 2006 to 8,446,201 certificates by the end of 2007, by 15.9%.

Table (4-11)  
Position of the Government Musharaka Certificates (GMCs)  
by the end of 2007

Entity	Number of Selling Certificates	Value in SDG Millions	Percentage from total %
Bank of Sudan	211,993	106.0	2.5
Banks	3,405,174	1,702.6	40.3
Companies & Funds	2,766,590	1,383.3	32.8
Public	2,062,444	1,031.2	24.4
<b>Total</b>	<b>8,446,201</b>	<b>4,223.1</b>	<b>100.0</b>

Source: Sudan Financial Services Company

Table (4-11), shows that the banks' share of the Government Musharka Certificates (GMCs) was the highest, by 40.3% while the share of the Central Bank of Sudan was the lowest, at 2.5%.

Table (4-12)  
The Returns of the Government Musharaka Certificates (GMCs)  
during 2007

No.	Date of Issue	Maturity (years)	Rate of Return (%)
1	01/01/2006	One	16.0
2	01/04/2006	One	14.3
3	01/07/2006	One	17.8
4	01/07/2006	One	15.5
5	01/10/2006	One	16.2
6	01/10/2006	One	15.5

Source: Sudan Financial Services Company.

## Returns on government Musharaka Certificates(GMCs):

Table (4-12) shows that the average rate of return on the Government Musharaka Certificates (GMCs) reached 15.9% for one-year maturity.

## Government Investment Certificates (GICs):

The balance of the Government Investment Certificates (GICs) rose from 12,990,816 certificates by the end of 2006 to 17,050,795 certificates by the end of 2007, by 31.2%.

Table (4-13)  
Position of Government Investment Certificates (GICs)  
By the end of 2007

Entity	Number of selling Certificates	Value in SDG Millions	Percentage from total%
Central Bank of Sudan	2,054,227	205.4	12.0
Banks	5,125,988	512.6	30.1
Companies and Funds	8,580,007	858.0	50.3
Public	1,290,573	129.1	7.6
<b>Total</b>	<b>17,050,795</b>	<b>1,705.1</b>	<b>100.0</b>

Source: Sudan Financial Services Company.

Table (4-13), shows that the companies and funds share in government Certificates (GICs) accounted for the highest percentage, at 50.3% while the share of the public constituted the lowest percentage, at 7.6%.

Rates of Return on Government Investment Certificates (GICs):

Table (4-14)  
The Rate of Return on Government Investment Certificates (GICs)  
during 2007

No.	Date of Issue	Maturity (years)	Rate of Return (%)
1	Third	Six	16
2	Fourth	Five	16
3	Fifth	Five	16
4	Sixth	Six	16

6	Eighth	Six	16
7	Ninth	Six	16
8	Tenth	Six	16
9	Eleventh	Six	16
10	Twelfth	Two	15

Source: Sudan Financial Services Company.

Table (4-14), shows that the average rate of return on Government Investment Certificates (GICs) reached 16% annually.

### The Central Bank of Sudan Ijarah Certificates (Shihab):

The Central Bank of Sudan introduced the Ijarah Certificates (Shihab) in September 2005 as an instrument of liquidity management and a substitute for the Central Bank of Sudan Musharaka Certificates (CMCs), table (4-15) shows the performance of the Ijarah certificates (Shihab) during the year 2007.

Table (4-15)  
Position of Central Bank of Sudan Ijarah Certificates (Shihab)  
by the end of 2007

Particulars	Number of Certificates	Value in SDG Millions
Total Certificates held with Banks	243,871	243.9
Certificates Sold	867,000	867.0
Certificates Purchased	682,600	682.6
Net balance of Certificates with Banks	184,400	184.4

Source: Sudan Financial Services Company

### 3. Banks Deposits Security Fund:

The Banks Deposits Security Fund was established according to its Act of 1996 to provide Islamic insurance service to bank deposits.

Table(4-16)  
The contribution to the Fund Resources  
for 2006-2007

(SDG million)

Contributors	2006	Total contribution%	2007	Total contribution%	Growth%
Banks	14.1	67	24.8	61.2	76
Ministry Of Finance	0.5	2	1.0	2.5	100
Central Bank Of Sudan	1.4	7	2.5	6.2	76
Depositors	5.2	24	12.2	30.1	136
<b>Total</b>	<b>21.2</b>	<b>100</b>	<b>40.5</b>	<b>100</b>	<b>91</b>

Source: Bank Deposit Security Fund

The resources of the Fund rose from SDG 21.2 million in 2006 to SDG 40.5 million in 2007, by 91%. Accordingly, The Board of Directors decided in its meeting number (4)(2/2007) to reduce the annual contribution of the banks to 2.5 per thousand instead of 3 per thousand of the total secured deposit, And to raise the maximum limit of the current and saving secured deposits up to SDG 3000 to cover 88.5% of depositors. And the investment deposits up to SDG 40000 to cover 65% of the total depositors starting from 2007.

#### 4. Khartoum Stock Exchange:

The Khartoum Stock Exchange was established in 1994, and the secondary market started its work in 1995.

The market contributes to the provision of long term finance, regulation of the issue of financial papers, trading in financial papers and boosting of investment awareness among the public.

Table (4-17)

Source: Khartoum Stock Exchange.

Table (4-17), shows that the volume of trading in the Stock Exchange declined from SDG 2,068.1 million in 2006 to SDG 1,799.6 million in 2007, by 13%, and the number of traded shares increased from 7,568 million shares in 2006 to 9,412 million shares in 2007, by 24.4%. The number of listed companies in the Stock Exchange rose from fifty two in 2006 to fifty three by the end of 2007, of which nineteen from the banking sector, eight from the insurance sector, seven from the commercial sector, two from the industrial sector, three from the agriculture sector, five from each of the communication and services

Moreover fifteen investment fund and twenty government Musharakah certificates were registered sectors and four from other sectors. The number of the operating brokerage companies in the Stock Exchange reached thirty-five in 2007 compared with twenty-

nine in 2006. Furthermore, fifteen investment funds were listed, in addition to twenty of Government Musharaka Certificates (GMCs).

Figure (4-3)  
**The Volume of Trading in  
 Khartoum Stock Exchange  
 during 2006 and 2007**

### 5. Insurance Market:

The number of companies operating in the field of insurance and reinsurance remained at fifteen as it was in 2005. These companies render insurance services and invest in certificates and deposits in addition to real estate.

#### Gross and Net Insurance Premium of Insurance Companies:

The total gross insurance premiums are represented by the amounts paid by the insured to the insurance companies, while the net insurance premiums are represented by the amounts paid by the insured after deducting the amounts paid by the insurance companies to reinsurance companies as insurance premiums.

Table (4-18)  
**Gross and Net Insurance Premiums  
 For 2005 and 2006**

(SDG Millions)

Particulars	2005	2006*	Change (%)
Gross Insurance Premiums	371.1	467.0	25.8
Net Insurance Premiums	245.4	313.8	27.9

Source: Insurance Supervision Authority. \* preliminary figures

Table (4-18) above, shows that gross insurance premiums rose from SDG 371.1 million in 2005 to SDG 467 million in 2006, by 25.8%. As for net insurance premiums they increased from SDG 245.4 million in 2005 to SDG 313.8 million in 2006, by 27.9%.

### Gross and Net Insurance Claims:

The gross insurance claims are represented by the total amounts paid by the insurance companies to the insured against damage, while net insurance claims are represented by the net amounts paid to the insured after deducting the claims of the insurance companies against the reinsurance companies.

Table (4-19)  
**Gross and Net Insurance Claims  
 In 2005 and 2006**

(SDG Millions)

Particulars	2005	2006*	Change (%)
Gross Insurance Premiums	187.1	258.2	38.0
Net Insurance Premiums	122.7	173.4	41.3

Source: Insurance Supervision Authority.  
 \* preliminary figures

Table (4-19) shows the rise in gross insurance claims from SDG 187.1 million in 2005 to SDG 258.2 million in 2006, by 38%, while net insurance claims rose from SDG 122.7 million in 2005 to SDG 173.4 million in 2006, by 41.3%.

## 6. The National Agency for Insurance and Finance of Exports:

The Agency was established by virtue of its Act in 2005 according to a joint initiative from the Central Bank of Sudan and the Ministry of Finance & National Economy, with an authorized capital of SDG 60 million, of which SDG 40 million were paid up capital till 31/12/2007. The Ministry of Finance and the Central Bank of Sudan contributed to the capital by a percentage not less than 25% for each while the rest of the capital was contributed to by banks and insurance companies, The start of the

operations of the Agency was scheduled for January 2006. The Agency has been set up as a body specialized in the insurance and finance of eligible Sudanese exports with the exception of oil and unprocessed gold. The key objectives of the Agency include the following:

- a. To broaden the base of the national economy and avoid dependence on oil.
- b. To boost the volume of Sudanese non-oil exports regarding quantity, quality and revenues.
- c. To create foreign markets for exporters and enable them to obtain adequate information about the requirements of international markets for Sudanese commodities.
- d. To expand the sources of financing for Sudanese exporters.
- e. Increase the competitiveness of the Sudanese non-oil exports sector.

CHAPTER FIVE  
**THE CENTRAL BANK  
OF SUDAN ACCOUNTS**  
**(for the year 2007)**

## CHAPTER FIVE

# THE CENTRAL BANK OF SUDAN ACCOUNTS (for the year 2007)

This Chapter presents the Balance Sheet (Financial Position) of the Central Bank of Sudan and the Profit and Loss Account (The Income Statement) for the year ending 31st December 2007, which were approved by the Chamber of the Auditor General.

### 1. The Balance Sheet:

Table (5-1) shows the balance sheet of the Central Bank of Sudan as at 31st December 2007 which was previously analyzed in Chapter Four of this Report.

Table (5-1)  
The Central Bank of Sudan  
Financial Position as at 31/12/2007

(SDG 000's)

Particulars	2006	2007
<b>Assets:</b>

<b>Expenses:</b>		
1. Currency Issuance Expenses	4,260	5,427
2. Administrative Expenses	175,050	218,779
3. Capital Expenses (Depreciation)	4,680	5,312
Provisions and Claims	229,914	266,364
<b>Total Expenses and Provisions</b>	<b>413,904</b>	<b>495,882</b>
Total Profit for Distribution	342,492	106,531
Transfer to Reserves	62,272	36,185
NET Profit due to the Government According to Article (18) of the Act of the Central Bank of Sudan.	280,220	70,346

Below are details of the changes in the items of the Profit and Loss Account :

### 1. Income:

Income decreased from SDG 756.4 million in 2006 to SDG 602.4 million in 2007, by (20.4)% as a result of the decrease in the income from foreign exchange dealings of SDG 86.9 million, investment income by SDG 72.0 million.

### 2. Expenses:

The Bank's expenses (Items 1 + 2 + 3 of Table "5-2") increased from SDG 184.0 million in 2006 to SDG 229.5 million in 2007, by 24.7% as a result of the increase in the administrative and capital expenses and also the expenses of issuing the currency.

### 3. Profits:

Net profits decreased from SDG 342.5 million in 2006, compared with SDG 106.5 million in 2007, by (68.9)%. Profits were distributed by replenishing the reserve accounts by SDG 36.2 million and transferring SDG 70.3 million to the Government Account in accordance with Article (18) of the Central Bank of Sudan Act, 2002.

### 3. Auditor's Opinion:

We have audited the attached balance sheet of the Central Bank of Sudan as at 31/12/2007 and its income and cash flow statements ending on same date.

The preparation of the Financial Statements is the responsibility of the Bank's management. Our responsibility is to express an opinion on these Financial Statements based on our audit.

We conducted our audit in accordance with the International Standards of Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements present a true and fair view of the position of the Bank as at 31/12/2007, and the results of its operations and cash flows for the year ending on that same date and have been properly prepared in accordance with the Accounting Standards issued by the Islamic Financial Institutions Committee.

CHAPTER SIX  
**GOVERNMENT FINANCE**

## CHAPTER SIX

# GOVERNMENT FINANCE

The budget for the year 2007, aimed to achieve positive and sustainable rates of growth in the national economy through maintaining the stability of the economy via achieving a GDP growth rate of about 10%, an average inflation rate of 8% and maintaining the stability of the exchange rate of the national currency. The budget also aimed to raise the performance efficiency in the national economy through the increase of capacity building, work towards increasing the revenue from real sources, implement the agreement of Wealth Sharing, control and rationalize government spending, abide by providing the financial provisions transferable to the states as a result of the implementation of the Peace Agreements, expand the social development program to alleviate poverty, increase spending on the agriculture sector, concentrate on reconstruction and development of the regions affected by the war, continue rehabilitating the infrastructure and encourage investments of the private sector.

### **Fiscal Performance for the year 2007:**

The actual performance of the budget for 2007, showed total public revenue at SDG 17,941 million, which was less than the budget estimates by 1.7% and accounted for 19.2% of GDP. Total current expenditure stood at SDG 15,986 million, a decrease of SDG 1,615 million 9.2% from the estimated target. As a result, the performance of current budget registered a surplus of SDG 1,955 million.

On the other hand, development and investment expenditure amounted to SDD 3,606 million, representing 91.5% of the estimated amount of SDG 3,941 million for 2007. The public sector overall deficit declined from SDG 3,178 million in 2006 to SDG 2,509 million in 2007, by 21.1%. The deficit was financed from external sources to the tune of SDG 1,732 million and from domestic sources by SDG 777 million.

Table (6-1) shows the financial performance of the public sector for the years 2006 and 2007.

For the year 2007

### Central Bank of Sudan Lending to the Government:

Article (48-1) of the Central Bank of Sudan Act (2002) allows temporary financing to the government up to 15% of total projected public revenues of the fiscal year following the year in which the finance is granted, provided that this finance would be repaid within the six months following the end of the fiscal year in which the finance was granted.

Temporary advances extended to the government in 2007 amounted to about SDG 591.5 million of which SDG 290 million was granted during 2007 by 1.6% of the ordinary revenue estimates.

### Foreign Exchange Budget:

\* Revised figures

\*\* Preliminary

The year 2007 foreign exchange budget witnessed a rise in total receipt from US\$ 12,957.9 million to US\$ 15,469.2 million, by 19.4%. Total payments, also increased from US\$ 13,517.9 million to US\$ 15,354.5 by 13.6%. This led to surplus in the budget amounted to\$ million in US\$ 114.7 million in 2007 compared to the deficit of US\$ 560 million in 2006.

CHAPTER SEVEN  
**GROSS DOMESTIC  
PRODUCT**

## CHAPTER SEVEN

# GROSS DOMESTIC PRODUCT

**G**ross Domestic Product (GDP) is the sum of the market value of all produced final goods and services in the country within a specified period of time (usually one year). Various methods are used for computing GDP and this report uses the Value-Added Method that is, adding the values of the final products (goods and services) at the current prices and excluding the value of intermediate goods and services used in the production process.

Table (7-1) presents the Gross Domestic Product at constant prices (based on 1981/82 prices) and the current prices (2007 prices).

Table (7-1)

\* Amended figures

\*\* Preliminary figures

It is evident from table (7-1) that GDP growth rate at constant prices has increased from 10.0% in 2006 to 10.5% in 2007 mainly due to the rise in the growth rates of the industrial sector from 12.5% to 22.8%.

### A. Agricultural Sector:

The share of the agricultural Sector, both the agrarian and livestock in the GDP has slightly dropped from 36.8% in 2006 to 35.3% in 2007. GDP growth rate of agriculture declined from 8.4% in year 2006 to 6.0% in year 2007. This was attributed to the large decrease in the growth rate of traditional rain fed agriculture from 30.0% in year 2006 to 8.0% in year 2007. The growth rate of mechanized rainfed agriculture also decreased noticeably from 18.0% in year 2006 to 7.8% in year 2007 and the

growth rate of forestry and others has also declined from 4.0% in year 2006 to 2.0% in year 2007. The growth rate of irrigated agriculture rose slightly from 11.7% in year 2006 to 12.0% in year 2007.

### B. Industrial Sector:

The growth rate of the industrial sector noticeably increased from 12.5% in year 2006 to 22.8% in year 2007. This was attributed to the rise in the growth rate of mining and quarrying sector from 16.0% in year 2006 to 34.6% in year 2007. The percentage share of this sector in GDP rose from 27.5% in year 2006 to 30.6% in year 2007.

The growth rate of manufacturing sector decreased from 7.0% in year 2006 to 6.9% in year 2007. Similarly, the electricity and water sector has witnessed a decline in its growth rate from 8.0% in year 2006 to 7.1% in year 2007, whereas its share in GDP remained constant at 1.3% during the last two years. Also the growth rate of building and construction sector declined from 10.0% in year 2006 to 6.7% in year 2007, with a slight decrease in its share in GDP from 4.0% in year 2006 to 3.9% in year 2007.

### C. Services Sector:

The share of services sector in GDP declined from 35.7% in year 2006 to 34.1% in year 2007 as a result of the decrease in the growth rate of government services and other services from 10.8% and 10.0% in year 2006 to 7.0% and 5.0% respectively in year 2007.

Chart (7-1) depicts the percentage share of the economic sectors in GDP during 2007.

Chart (7-1)  
Percentage Share of the Economic Sectors  
in GDP in 2007

## Inflation:

Inflation is a sustained rise in the general price level, which results into the depreciation of the value of the currency during a specific period of time. Inflation is calculated from the weighted consumer price index (CPI) of a group of goods (basket of goods and services) and weighing these products by (the percentage of expenditure on the good and services to total expenditure) over a certain period of time.

Inflation has registered a relatively lower rate during 2007 at one digit level since February 2007 up-to September 2007. It increased to two digits level in October and reverted to one digit level. Despite this, the annual average inflation rate has risen from 7.2% in 2006 to 8.1% in 2007.

Table (7-2) shows the annual average inflation rate computed by the Consumer Price Index (CPI) during 2006 and 2007.

Table (7-2)  
Inflation Rates (%)  
Base year 1990 = 100

	2006		2007	
	End December %	Annual Average %	End December %	Annual Average %
Higher income	16.3	8.1	8.1	8.7
Medium income	15.4	7.1	8.8	8.1
Lower income	15.7	6.5	8.2	7.6
Geometric Mean	15.8	7.2	8.4	8.1

Chart (7-3)  
Geometric Mean the Annual Average  
Inflation Rate During 2006-2007

### The Gross National Product:

Gross National Product (GNP) refers to the total market value of the final goods and services recently produced in the country during the year in addition to net receipts of the national factors of production from abroad and payments to foreigners.

Table (7-3)  
**Gross National Product at 1981/82 Constant Prices**

Gross National Product (A + B)	22,196.1	24,549.6
GNP Annual Growth Rate (%)	9.3%	10.5%

Source: \* Ministry of Finance and National Economy (MFNE) \*\* Central Bank of Sudan (CBOS)

Table (7-3) shows that the growth rate of the Gross National Product (GNP) at 1981/82 constant prices increased from 9.3% in 2006 to 10.5% in 2007. This was attributable to the rise in the growth rate of GDP at constant prices from 10.0% in 2006 to 10.5% in 2007, and to the improvement in the average exchange rate of the Sudanese Pound viz-a-viz the US dollar from SDG 2.17 in 2006 to SDG 2.02 in 2007, despite the rise in the deficit in net receipts and invisible payments from USD 3,471,270 Thousands in 2006 to USD 4,335,900 Thousands in 2007 as a result of the rise in foreign transfers in income, foreign direct investment and private sector transfers items.

CHAPTER EIGHT  
**PRODUCTION**

## CHAPTER EIGHT

# PRODUCTION

**T**his Chapter covers the agricultural sector with its two components: (The agrarian and the animal) as well as the industrial and the service sectors.

The agricultural sector remained in the forefront of the productive sectors in the Sudan for many years, contributing a substantial share of 30%, to the GDP, despite the decline in its growth rate during the last years. As far as the industrial sector (including petroleum), its growth rate has continued to increase since 1999 to become major productive sectors in terms of its large contribution on export proceeds of 95.1%. This was accompanied by development and promotion in the services sector, particularly communications, roads and electricity.

A detailed explanation of the production of these sectors and their contributions to the gross domestic products is given below: -

### **First: The Agricultural Sector**

The country's agricultural policy in 2007 was directed towards supporting the agricultural sectors to achieve economic safety, food security, self sufficiency, import reduction and supporting the producers.

#### **A. The Agrarian Production:**

The agrarian production includes mechanized, and traditional rain fed agriculture, the irrigated agriculture, the forestry and the pastoral. The agrarian production contributed with 56.5% of the total agricultural sector in 2007.

Table (8-1)  
**The Cultivated Areas**  
 during 2005/06 and 2006/07 seasons

(Area in Millions Feddans)

Season	The irrigated agr.	The mechanized rain fed agr.	The traditional rain fed agr.	The total cultivated areas
2005/06*	2.0	15.2	24.1	41.3
2006/07	2.7	13.9	25.3	41.9

Source: Ministry of Agriculture-Estimates of the Agricultural Statistics.

\*Amended figures.

Table (8-1) shows a slight increase in the cultivated areas in 2006/07 season, due to the expansion in the irrigated and the traditional rain fed agriculture, the decline in the mechanized rain fed agricultural was due to the decline in the Sorghum cultivated areas.

Below are the details of the production of the important crops during 2006/2007 season, and include :

## i. The Main Cash Crops

The production of the main cash crops decreased in 2006/2007 season compared with the preceding one as a result of the drop in the cultivated areas.

### 1. Cotton:

Table (8-2) shows Cotton production.

Table (8-2)  
**Cotton Production**  
 during 2005/06 and 2006/07 Seasons

2005/06			2006/07		
Cultivated Areas (000's Feddan)	Average Prod. Per Feddan (Quintals)	Production (000's Bale)	Cultivated Areas (000's Feddan)	Average Prod. Per Feddan (Quintals)	Production (000's Bale)
406.4	3.9	393.9	381	3.2	321.2

Source: Sudan Cotton Company.

Cotton production declined from 393.9 thousand bales in 2005/06 season to 321.2 thousand bales in 2006/07 season by 18.5% due to the decrease in the cultivated areas from 406.4 thousand feddans to 381 thousand feddans by 6.3% and the decline in average productivity from 3.9% to 3.2 %quintal/ feddan.

## 2. Gum Arabic:

Gum Arabic was considered as one of the main cash crops in Sudan beside cotton. Table (8-3) explain the production of Gum Arabic.

Table (8-3)  
Gum Arabic Production  
during 2005/06 and 2006/07 Seasons

(000's Tons)

Crops	2005/06	2006/07	Percentage Change%
Hashab Gum	11.6	10.1	(13)
Talh Gum	0.3	1.1	(266.7)
<b>Total</b>	<b>11.9</b>	<b>11.2</b>	<b>(5.9)</b>

Source: Gum Arabic Company.

The production of Gum Arabic dropped from 11.9 thousand tons in 2005/06 season to 11.2 thousand tons in 2006/07 season by 5.9%, due to liquidity shortage and an increase in the domestic cost.

### ii. The Main Food Crops

The production of the main food crops in 2006/07 season increased compared with the preceding one. This was attributed generally to the increase in the cultivated areas in addition to the rise in productivity.

Table (8-4) below shows the production of the important main food crops.

Table (8-4)  
Production of the Main Food Crops  
in 2005/06 and 2006/07 Seasons

Crops Season	Sorghum (Dura)			Millet (Dukhun)			Wheat		
	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan
2005/06*	20,453	4,327	423	10,892	675	210	433	416	740
2006/07	20,594	4,999	492	10,667	796	228	728	669	745

Source: Ministry of Agriculture-Agricultural Statistics Estimates.

\* Amended figures.

### 1. Sorghum (Dura):

The production of sorghum increased from 4,327 thousand tons in 2005/06 season to 4,999 thousand tons in 2006/07 season by 15.5%. This is due to the increase in the cultivated areas from 20,453 thousand feddans to 20,594 thousand feddans as well as the increase in the productivity from 423 kg/feddan to 492 kg/feddan.

### 2. Millet (Dukhun):

The production of millet was increased from 675 thousand tons in 2005/06 season to 796 thousand tons in 2006/07 season by 17.9%. This resulted from the rise in productivity from 210 kg/feddan to 228 kg/feddan.

### 3. Wheat:

The production of wheat witnessed a noticeable increase from 416 thousand tons in 2005/06 season to 669 thousand tons in 2006/07 season, by 60.8%. This is due to the increase in the area under cultivation from 433 thousand feddans to 728 thousand feddans.

Figure (8-1) Illustrates the production of the important main food crops.

Figure (8-1)  
Production of the Main Food Crops  
in (2005/06 and 2006/07) Seasons

### iii. The Main Oil Seeds

Table (8-5) shows the production of the main oil seeds.

Table (8-5)  
**Production of the Main Oil Seeds  
 in 2005/06 and 2006/07 Seasons**

Crops Season	Groundnuts			Sesame			Sunflower		
	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan	Cultivated Area in 000's Feddan	Production in 000's Metric Tons	Productivity KGs/Feddan
2005/06*	1,615	555	687	5,311	400	91	87	44	509
2006/07	1,932	564	667	3,348	242	85	161	73	511

Source: Ministry of Agriculture-Agricultural statistics estimates.

\* Amended figures

### 1. Groundnuts:

The production of groundnuts increased from 555 thousand tons in 2005/06 season to 564 thousand tons in 2006/07 by 1.6%. This was due to the increase in the area under cultivation from 1,615 thousand feddans to 1,932 thousand feddans by 19.6%. Despite the drop in the productivity per feddan from 687 kg. to 667 kg.

### 2. Sesame:

The Production of sesame decreased from 400 thousand tons in 2005/06 season to 242 thousand tons in 2006/07 season by 39.5%. This was due to the drop in cultivated areas from 5,311 to 3,348 thousand feddans.

### 3. Sunflower:

Sunflower Production increased from 44 thousand tons in 2005/06 season to 73 thousand tons in 2006/07 season by 65.9%. This was due to the increase in the areas under cultivation from 87 thousand feddans in 2005/06 to 161 thousand feddans in 2006/07 season by 85.1%.

## B. Animal Production:

Sudan is regarded as a major Arab and African country in terms of animal resources and its products, which contributes in achieving food security by providing various types of meat, eggs as well as milk by-products for domestic consumption and exports.

Table (8-6) shows the estimated total national livestock from Ministry of animal resources for the years 2006/2007.

Table (8-6)  
**Animal Resources Estimates  
 During tow 2006 and 2007**

(Thousand Heads)

Type	2006	2007	% Change
Cows	40,994	41,138	0.35
Sheep	50,390	50,651	0.52
Goats	42,756	42,938	0.43
Camels	4,078	4,238	3.9
<b>Total</b>	<b>138,218</b>	<b>138,965</b>	<b>0.54</b>

Source: Ministry of Animal Resources

Table(8-6) Shows a small increase in the approximated estimates issued by Ministry of Animal Resources generally.It increased from 138,218 in 2005/06 to 138,965in2006/07 by.54%

## Second: The Industrial Sector

This sector comes after the agricultural sector in terms of importance. It includes mining and manufacturing. Its growth rate increased noticeably from 12.5% in 2006 to 22.8% in 2007. Also its contribution to the GDP rose from 27.5% in 2006 to 30.6% in 2007.

The following details depicts the important industries.

### 1. Oil:

Since 1999 oil has become one of the country's exports and the biggest source of foreign currencies.

Total production of crude oil increased from 132,737.5 thousand barrels in 2006 to 176,573.1 thousand barrels in 2007 by 33%. Also the total production of petroleum products rose from 3,911.8 thousand metric tons in 2006 to 4,374 thousand metric tons in 2007 by 11.8%.

Table (8-7) shows the production of crude oil and Petroleum Products.

Table (8-7)  
**Production of Crude Oil and Petroleum Products**  
**During the years 2006 and 2007**

(MT)

Particulars Petroleum Products	2006		2007		Change%
	Production 000's MT	% Share of Total	Production 000's MT	% Share of Total	
Diesel	1,816.9	46.45	2,065.7	47.23	13.7
Kerosene	41.4	1.06	30.9	0.71	(25.4)
Furnace	385.3	9.85	626.9	14.33	62.7
Butagas	322.6	8.24	309.2	7.07	(4.2)
Benzine	1,139.1	29.12	1,205.0	27.55	5.8
Naphtha	24.3	0.62	19.1	0.44	(21.4)
Jet	182.2	4.66	117.2	2.68	(35.7)
<b>Total</b>	<b>3,911.8</b>	<b>100.00</b>	<b>4,374.0</b>	<b>100.00</b>	<b>11.8</b>

Source: Ministry of the Energy and Mining.

Figure (8-2) shows percentage shares of petroleum by-products.

Chart (8-2)  
**Shares of Petroleum by Products**  
**in 2007**

## 2. Sugar Industry:

The government paid a great attention to sugar as a strategic product.

Table (8-8) shows the production of the sugar factories during the years 2006/07.

The total production of sugar increased (the Sudanese Sugar Company and Kenana) from 728.1 thousand tons in 2006 to 756.8 thousand tons in 2007 by 3.9%. This was due to the increase in the production of all sugar factories except New Halfa.

Table (8-8)  
Production of the Sugar Factories  
in 2006 and 2007

(Thousands Tons)

Factory	Designed Capacity	Actual Production		Change%
		2006	2007	
Kenana	300.0	400.2	405.0	1.2
New Halfa	75.0	84.8	83.1	(2.0)
Gunied	60.0	81.1	87.2	7.5
Sennar	110.0	80.6	92.0	14.1
Hajar Assalaya	110.0	81.4	89.5	10.0
<b>Total</b>	<b>655.0</b>	<b>728.1</b>	<b>756.8</b>	<b>3.9</b>

Source: The Sudanese Sugar Company and Kenana Sugar Co.

### 3. Cement Industry:

The public sector has started its production of cement By establishing Atbara Cement Factory in 1947, and Rabak Cement Factory which was established in 1965. However, in the context of the privatization policy, Atbara Cement Factory was sold to the Sudanese African Company in September, 2002 and Rabak Cement Factory was sold to Star Emirates Company in December, 2004.

Table (8-9) shows the actual production of Atbara and Rabak Cement Factories.

Table (8-9)  
Production of Cement  
in 2006 and 2007

(Thousands Metric Tons)

Factories	Actual Production		% Rate of Change
	2006	2007	
Atbara	114.2	231.8	103.0
Rabak	88.0	94.4	7.3
<b>Total</b>	<b>202.2</b>	<b>326.2</b>	<b>61.3</b>

Source: The above mention Factories.

Cement production has increased noticeably from 202.2 thousand tons in 2006 to 326.2 thousand tons in 2007 by 61.3%, This was due to the large increase in Atbara Factory production by 103% 10 2007 compared to 2006, and the increase in Rabak factory by 7.3 % compared to the year 2006.

## 12. Other Processing Industries:

It concentrated mainly in food, and chemical materials industry, The average of its contribution in the export is amounted to 8%. This sector has witnessed an noticeable development in the last years.

## Third: Electricity and Water Sector

The rate of growth of the electricity and water sector decreased from 8.0% in 2006 to 7.1% in 2007.

### 1. The National Electricity Corporation:

It was one of the public sector Corporations, which generates and distributes electricity.

#### a. Generated Power

Table (8-10) and figure (8-3) shows the generated electricity power in the Sudan.

Table (8-10)  
Electric Power Generated in the Sudan  
During the years 2006 and 2007

(giga watt/hr)

Power generated	2006	2007	% Change
Hydro electric generation	1,368.2	1456.6	6.5
Thermal electric generation:	3,153.2	3,664.4	16.2
a. Steam generation	1,107.7	1,056.5	(4.6)
b. Gas generation	500.9	371.4	(25.9)
c. Diesel generation	352.9	140.0	(60.3)
Compounded Circle	1,191.7	1,996.5	67.5
<b>Total power generation</b>	<b>4,521.4</b>	<b>5,021.0</b>	<b>11.1</b>

Source: The National Electricity Corporation

Figure (8-3)  
Sources of Electric Power Generated during 2007

The total power generated increased from 4,521.4 gega watt/hr, in 2006 to 5,021.0 gega watt/hr in 2007 by 11.1%. That thermal generation constituted with 69.7% and 73% of the total power generated during 2006 and 2007, respectively.

### b. Consumed Power:

The total consumed power increased from 3,457.1 gega watt/hr in 2006 to 3,836.3 gega watt/hr in 2007 by 11.0%.

Table (8-11) shows the power consumption by sectors.

Table (8-11)  
Electric Power Consumed by Sector  
During the years 2006 and 2007

(gega watt/hr)

Sector	2006	2007	The consumption share of each sector (%)	Change%
Residential	1,736.6	1,906.6	49.7	9.8
Industrial	565.7	608.4	15.9	7.5
Agricultural	123.6	120.2	3.1	(2.8)
Governmental	508.6	573.4	14.9	12.7
Other Sectors *	522.6	627.7	16.4	20.1
<b>Total</b>	<b>3,457.1</b>	<b>3,836.3</b>	<b>100.0</b>	<b>11.0</b>

Source: National Electricity Corporation

\* Includes Commercial and light freight Sector

## 2. The National Water Corporation:

The National Water Corporation meets up the international requirements related to the water supply to rural and urban areas.

Table (8-12) shows total water produced during the years 2006 and 2007.

Table (8-12)  
**Water Production by Sectors  
during 2006 and 2007**

(Thousands Cubic Meters Per Day)

Sector	2006	2007	% Rate of Change
Urban	1,439.5	1,583.4	10.0
Rural	1,302.5	1,432.8	10.0
<b>Total</b>	<b>2,742.0</b>	<b>3,016.2</b>	<b>10.0</b>

Source: National Water Corporation.

The total production of the National Water Corporation increased from 2,742 thousand cubic meters per day in 2006 to 3,016.2 thousand cubic meters per day in 2007 by 10.0%. This was detailed as follows :

- Total production of water in the urban area increased from 1,439.5 thousand cubic meters per day in 2006 to 1,583.4 thousand cubic meters per day in 2007 by 10.0%.
- Total production of water in the rural area increased from 1,302.5 thousand cubic meters per day in 2006 to 1,432.8 thousand cubic meters per day in 2007 by 10.0%.

## Fourth: The Services Sector

The services sector includes: government services and other services, important among them : transport, roads, bridges and communications.

The Sudan was able to occupy achieve progress in this sector which contributed to increase its rate of growth.

### 1. Transport:

The modes of transport in the Sudan include: shipping lines, airlines, railways, river transport and land transport.

Table (8-13) below shows the goods and the number of passengers transported via these modes.

Table (8-13)  
Goods and Passengers Transported  
During the years 2006 and 2007

Mode of Transport	2006		2007		% change	
	Goods (in thousand tons)	Passengers (in thousands)	Goods (in thousand tons)	Passengers (in thousands)	Goods%	Passengers%
Land Transport *	8,000.0	19,200	5,555.8	22,400.0	(30.6)	16.7
River Transport	79.4	25.0	71.1	14.3	(10.5)	(42.8)
Sudan Railways	1,318	61.0	1,091.0	51.3	(17.2)	(15.9)
Sudan Airways **	17.0	520.1	11.4	476.1	(49.1)	(8.5)
Sudan Shipping Line	181.7	-	168.9	0	0.0	7.0

Source: The Above-mentioned Authorities.

\*(Includes Lorries, Trucks, Minibuses and Buses).

\*\*Amended figures

The number of passengers and the transported goods via all the modes of transport decreased in 2007, except for the small increase in the Land Transport this was due to factors related to rehabilitation and maintenance

## 2. Roads and Bridges:

Table (8-14) shows the plan and the executed part.

Table (8-14)  
Status of Execution of the Plan  
Of the National Corporation for Roads and Bridges in 2007

a. road execution	Length(km)			b. road rehabilitation	Length(km)		
	planned	executed	Rate%		planned	executed	Rate %
Length of Executed roads	1,539.3	934.1	60.7	Total of Achieved rehabilitation during the year	757.7	544.5	71.9

Source: National Corporation for Roads and Bridges

## 3. Communications:

The communication services in Sudan witnessed a noticeable progress due to competition and entrance of international companies such as Sudanese Mobile Phone Company (Zain), Bashayer mobile phone company (MTN) and Canar telecommunication company (Canartel), In addition to the Sudan Telecommunications Company (Sudatel)

which added mobile services(Sudani).This strengthened and raised the competition between these companies in the fixed telephone, mobile and the internet using the modern technology.

Table (8-15) and Figures (8-4) show the number of subscribers of telecommunications companies and the range of coverage.

Table (8-15)  
**Subscribers of Telecommunications Companies and  
the Range of Coverage during the years 2006,2007**

Company	Network Capacity	Number of Subscribers		Change%	Number of areas Covered by the end of 2007
		2006	2007		
Sudan Telecommunications Co. (Sudatel)*	2,300,000	300,000	2,958,203	886.0	205
Sudanese Mobile Telephone Co. (Zain)	4,870,0000	2,464,430	3,877,474	57.3	284
Bashayer mobile phone services (MTN)	4,500,000	1,027,300	2,089,618	103.4	172
Canar telecommunications company (Canartel)	470,000	143,466	244,607	70.5	41

Source: The National Telcom. Corporation.

\* Includes fixed phone subscribers (In Sudan) & (Sudani) subscribers

### **a. Sudan Telecommunications Company (Sudatel):**

The number of subscribers increased substantially from 300,000 in 2006 to 2,958,203 (fixed+Sudani) by the end of 2007 by 886%, due to dependence on Sudani phone service whereas the network and sector capacities remain the same as before.

### **b. Sudanese Mobile Telecommunications Co. (Zain):**

The number of subscribers increased by 57.3% from 2,464,430 by the end of 2006 to 3,877,474 by the end of 2007.

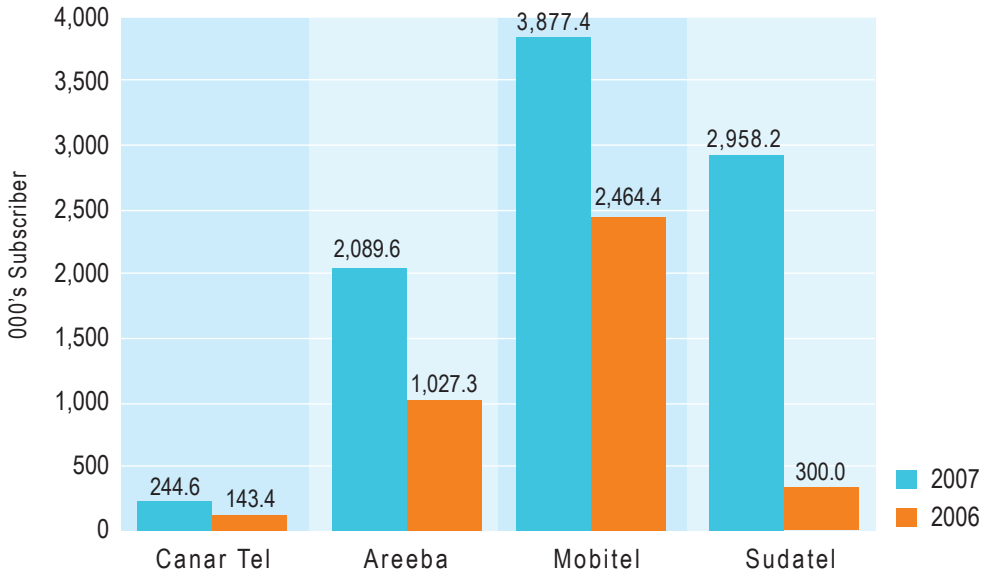

### **c. Bashayer Co. for Mobile Phone Services**

The number of subscribers increased from 1,027,300 by the end of 2006 up to 2,089,618 by the end of 2007 by 103.4%

#### d. Canar Telecommunications Co. (Canartel)

The number of subscribers increased from 143,466 by the end of 2006 up to 244,607 by the end of 2007 by 70.5%

Figure (8-4)  
Telecommunications Subscribers  
for the years 2006 and 2007

CHAPTER NINE  
**BALANCE OF PAYMENTS**

## CHAPTER NINE

# BALANCE OF PAYMENTS

The balance of payments is prepared according to the Fifth Edition of the Balance of Payments Manual issued by the International Monetary Fund (IMF) in September, 1993 and consists of the current account (represented by the trade balance, the services, income and transfers account) in addition to the capital and financial account.

Table (9-1) and Chart (9-1) present a summary of the balance of payments for the two years, 2006 and 2007.

Table (9-1)  
Balance of Payments for 2006 and 2007

(US\$ Millions)

	2006*	2007**
<b>A. Current Account (1+2)</b>	<b>(4,919.4)</b>	<b>(3,268.2)</b>
1. Trade Balance (FOB***)	(1,448.1)	1,156.8
2. Services, Income and Transfers	(3,471.3)	(4,425.0)
<b>B. Capital and Financial Account</b>	<b>4,611.0</b>	<b>2,945.5</b>
Deficit or Surplus in Current Account and Capital and Financial Account (A + B)	(308.4)	(322.7)
<b>C. Errors and Omissions</b>	<b>99.8</b>	<b>40.7</b>
<b>D. Convertible Currencies Reserves</b>	<b>208.6</b>	<b>282.0</b>

Source: Central Bank of Sudan.

\* Real Data \*\* Preliminary Data \*\*\* Exports and Imports on FOB basis

Chart (9-1)  
Balance of Payments for 2006 and 2007

The overall position of the balance of payments deficit increased from US\$ 208.6 million in 2006 to a deficit of US\$ 282.0 million in 2007, this was attributed to the decrease in the capital and financial account surplus from US\$ 4,611.0 million in 2006 to US\$ 2,945.5 million in 2007, by 36.1%.

Furthermore the current account deficit decreased from US\$ 4,919.4 million in 2006 to US\$ 3,268.2 million in 2007 by 33.6%, this was attributed to the change in trade balance from a deficit of US\$ 1,448.1 million in 2006 to a surplus of US\$ 1,156.8 million in 2007.

Table (9-2) presents the details of the balance of payments for 2006 and 2007 while Appendix Eighteenth presents the balance of payments for the last three years (2005 – 2007).

Table (9-2)  
Balance of Payments for 2006 and 2007

(US\$ Millions)

	2006*	2007**
<b>A. Current Account:</b>	<b>(4,919.4)</b>	<b>(3,268.2)</b>
<b>Visible Transactions:</b>		
<b>Exports (FOB):</b>	<b>5,656.6</b>	<b>8,879.2</b>
Petroleum	5,087.2	8,418.5
Others	569.4	460.7

## The Current Account:

The current account consists of visible and invisible transactions.

## First: Visible Transactions

The visible transactions include exports and imports of commodities. The trade balance switched from a deficit of US\$ 1,448.1 million in 2006 to a surplus of US\$ 1,156.8

million in 2007, this was due to the increase in the exports proceeds by 57%, this in turn was attributed to the increase in the exports proceeds of Petroleum products from US\$ 5,087.2 million in 2006 to US\$ 8,418.5 million in 2007, while other exports decreased from US\$ 569.4 million in 2006 to US\$ 460.7 million in 2007. Imports (FOB\*) increased from US\$ 7,104.7 million in 2006 to US\$ 7,722.4 million in 2007, by 8.7%, due to the increase in government imports by 20.1% (including commodity aid amounting to US\$ 89.6 million), and the increase in private sector imports by 6.5%.

### **A. Exports:**

Since 1999 oil and its by products became the most important Sudanese export. In 2007, the exports of oil and its by products constituted 94.8% of total exports. Crude petroleum registered an increase of 71.2%, while natural gas increased by 253.3%. Furnace, mixed gas and fuel oil showed up again in the list of petroleum products.

The agricultural products with its agrarian and animal sub-sectors ranked second followed by manufactured materials such as sugar followed by minerals, the most important of which is gold, non-oil exports dropped by 19.1% in 2007 due to the noticeable decrease in export proceeds of sesame, cotton, livestock and meat by 44.4%, 16.7%, 33.7% respectively.

Table (9-3) below highlights the proceeds of oil and non-oil exports for 2006 and 2007.

<b>TOTAL</b>	<b>8,073.5</b>	<b>100</b>	<b>8,775.5</b>	<b>100</b>

Source: Sudan Customs Authority.

\* include cost of transportation and insurance.

The value of imports (CIF) went up from US\$ 8,073.5 million in 2006 to US\$ 8,775.5 million in 2007 i.e. a rise of 8.7%, this was due to the noticeable rise in the majority of key imports items. Manufactured goods, beverages and tobacco, chemical products, the machineries and equipments, the food-stuffs and textiles registered increases of 18.3%, 18 %, 17.2%, 13.7%, 13.4%, respectively, while petroleum products and other raw materials registered a drop by 29.6% and 16.6% respectively.

Chart (9-2)  
Imports Structure for 2006 and 2007

### Direction of Sudan's Foreign Trade:

The Asian non-Arab countries remained the main market for the Sudanese exports during the last nine years, They also represented the main source of Sudan imports during the period (2004-2007).

### Direction of Exports:

Table (9-5) reflects the direction of Sudan's exports and its percentage of total exports during 2007 compared to 2006.

\* Estimated Data.

The group of Asian non-Arab countries constituted the largest market for the Sudanese exports (especially oil) during 2007 as they stood at US\$ 8,158.8 million i.e. 91.9% of the value of exports compared to 86.1% in the previous year. China topped the list by 81.9% followed by Japan 8.5% of the total exports.

During 2007 the value of Sudanese exports to Arab countries (except Comesa) witnessed a decline as their value reached US\$ 365.7 million i.e. 4.1% of the total exports compared to 8.0% in the previous year. The United Arab Emirates ranked first by 2.5%, followed by the Kingdom of Saudi Arabia 1.1% of the total exports.

During 2007 the value of Sudanese exports to Comesa countries witnessed a decline as their value reached US\$ 86.8 million compared to US \$ 150.2 million in the previous year. The Arab Republic of Egypt ranked first by 0.6%, followed by Ethiopia 0.3% of the total exports.

Exports to the European countries in 2007 increased to US\$ 188.0 million representing 2.1% of the total exports compared to 1.8% in the previous year, the European Union countries topped the list representing 1.7% followed by the United Kingdom 0.3%, and other European countries 0.1% of the total exports.

Exports to the United States of America representing 0.1% of the total exports in the year 2007.

## **2. Direction of Imports:**

Table (9-6) illustrates the sources of Sudanese imports and their percentages for 2006 and 2007 (Imports on (CIF) basis).

\* include cost of transportation and insurance.

The group of Asian non-Arab countries represented the major source of Sudan's imports in 2007 (for the fourth consecutive year), these imports reached US\$ 4,058.9 million i.e. 46.3% of the total value of imports, China topped the list by 27.8%, followed by India and Japan by 6.2% and 4.2% respectively of the total imports.

Sudan's imports from the European countries ranked second in 2007 their value was US\$ 1,598.3 i.e. 18.2% of the total imports, the European Union countries ranked first as their exports to Sudan remained at 11.2 % of the total imports. Sudan's imports from Australia and the United States of America 2.0% and 1.8% respectively. Imports from other countries stood at 7.5% of the total imports.

On the other hand, Sudan's imports from the group of Arab countries (Excluding Comesa Countries) reached US\$ 1,407.5 million i.e. 16.0 % of the total imports. The Kingdom of Saudi Arabia ranked first among the group as its exports stood at 7.5 %, followed by United Arab Emirates by 5.5% of the total imports in 2007.

As for imports from COMESA countries reached US\$ 720.5 million by 8.2% of the total imports, the Arab Republic of Egypt topped the list of these countries by 5.6% followed by Swaziland 1.0 % of the total imports

## **Second: The Invisible Transactions**

Invisible transactions include receipts and payments for non merchandise trade. The deficit in the services, income and transfers account rose from US\$ 3,471.3 million in 2006 to US\$ 4,425 million in 2007, by 27.5%. Table (9-7) shows that this deficit resulted from the increase in invisible payments by 20.1% whereas invisible receipts increased by 10.9%.

Table (9-7) presents details of the invisible transactions for 2006 and 2007.

\* Real Data

\*\* Preliminary Data

Invisible receipts increased from US\$ 2,767.4 million in 2006 to US\$ 3,068.4 million in 2007 as a result of the increase in receipts in each of the services, income and transfers by 15.7%, 105.7% and 6.6%, respectively. Resulted for the increase in other business services, portfolio investment income and current transfer, inspite of the decrease in receipts of official grants by 53.9%, (commodity grants by 64.3% and cash grants by 27%).

Invisible payments rose from US\$ 6,238.7 million in 2006 to US\$ 7,493.4 million in 2007 due to the increase in each of the services, income and current transfers by 4.9%, 15.9% and 58.7%, respectively, due to the increase in payments for travel and transport by 4.4%, 5.4% respectively, and increase in investments income for the foreign oil companies by 14.2%, and increase private sector transfers by 61%.

## **The Capital and Financial Account:**

### **A. The Capital Account:**

The capital account comprises capital movements and transfers that lead to a change in ownership of fixed assets or foreign debt that a creditor decides to give up for free. It also includes acquisition of non-financial assets or dispensing of them, such as: intellectual property rights, trademark, goodwill, patent rights and copyrights.

### **B. The Financial Account:**

The financial account registers the economy's transactions in foreign financial assets and obligations. It also includes foreign direct investments, portfolio investments and other recorded investments consisting of net commercial advances and loans, as well as movements in non-reserve assets and the liabilities of the Central Bank of Sudan and commercial banks.

Table (9-8) shows items of the capital and financial account for the years 2006 and 2007.

The movements in net capital and financial account decreased from US\$ 4,611 million in 2006 to US\$ 2,945.5 million in 2007 as a result of the increase in foreign direct investment and other investments by 31.4% and 57.4% respectively.

\* Real Data \*\* Preliminary Data \*\*\* ( ) Minus Sign Represents an increase in External Assets

Net direct investment decreased from US\$ 3,534.1 million in 2006 to US\$ 2,425.6 million in 2007. Net portfolio investments switched from outflows amounting to US\$ 35.3 million in 2006 to inflows amounting to US\$ 45.6 million in 2007.

Net other investments decreased from US\$ 1,112.2 million in 2006 to US\$ 474.3 million in 2007 as a result of the decrease in the net trade facilities by 30.5% and the decrease in the net foreign assets of the Monetary Authority by 55.8%.

### **Drawings on Loans:**

Drawings from foreign loans rose from US\$ 276.7 million in 2006 to US\$ 594.2 million in 2007, by 114.1%.

Drawings from loans extended by the Arab Fund for Economic and Social Development amounted to US\$ 134.1 million, were used to finance Atbara-Port Sudan-Haya Highway Project, the construction of Merawi Dam Project and White Nile Sugar project. Drawings from the loans extended by Abu Dhabi Development Fund amounted to US\$ 51.9 million, which were used on construction of Merawi Dam, Saudi Fund for Development loan of US\$ 79.6 million was used for the construction of Merawi Dam, White Nile Sugar, Export Development project and the Kuwaiti Fund for Development loan of US\$ 37.6 million was used on the construction of Merawi Dam. Drawings from the loan of the Islamic Development Bank amounted to US\$ 31.1 million was used on Khartoum State Water Purification Project, Malaria eradication, reduction of drought effects in Darfur, building of the Lower Gates of the Rosairis Dam, in addition to other projects. The loan from China, amounted to US\$ 132.7 million was utilized in the Rehabilitation of the Electricity Project of the National Capital and other projects, also drawings from the International Fund for Agricultural Development (IFAD) of US\$ 11.2 million, were used in the rural development schemes of Northern Kordofan, Southern Darfur and other projects. Drawings from the OPEC Fund loan amounted to US\$ 2.3 million, was utilized for financing rehabilitation of irrigation infra-structure in the Gezira Scheme.

Drawings from the Indian Finance Facility during 2007 amounted to US\$102.5 million and was used for Rehabilitation of Kosti Electricity, solar energy project (Northern Korofan), Higher education (lab. equipments), Power line (Singa-Elgadarif).

Drawings on the loan from Turkey amounted to US\$ 9.2 million and was utilized in funding Al-Mek Nimir Bridge Project.

### **Repayment of Loans:**

Total repayments of external debt decreased from US\$ 176.5 million in 2006 to US\$138.8 million in 2007, by 21.4%.

Repayments of loans to International Monetary Fund amounted to US\$ 51 million, China US\$ 32.1 million, Arab Fund for Economic and Social Development US\$ 15.7 million, Kuwaiti Fund for Development US\$ 10.1 million, Islamic Development Bank US\$ 8.4 million, Saudi Fund for Development US\$ 5.9 million, Abu Dhabi Fund US\$ 4.2 million, OPEC Fund US\$ 2.7 million, Arab Monetary Fund US\$ 1.0 million, the International Fund for Agricultural Development (IFAD) US\$ 2.4 million, Indian (Export and Import Bank) US\$ 3.1 million and Turkey US\$ 1.4 million.

Total foreign debt repayments represents 1.6 % of the value of total exports. Appendix Nineteenth (A) shows the position of the public sector loans as at 31<sup>st</sup> December 2007.

### **Loans and Grants Contracted During 2007:**

Total loans and grants contracted during 2007 amounted to US\$ 1505.4 million, consisting of loans amounted to US\$ 1490.5 million and grants of US\$ 14.9 million, respectively.

Appendix Nineteenth (B) and Nineteenth (C) shows the loans and grants concluded during 2007.

### **Commodity Grants Contracted During 2007:**

Commodity Grants concluded during 2007 reached US\$ 245.2 million from the World Food Programme US\$ 6.1million, United Nation Development Programme US\$ 116.8 million, United Nation for Population US\$ 13.4 million, the United Nations Children's Fund (UNCIF) US\$ 108.8 million (Appendix Nineteenth (D) shows the Commodity Grants Concluded During 2007).

### **Sudan External Obligations:**

Sudan's total external obligations reached US\$ 31,8 billion by the end of 2007, compared to US\$ 28.4 billion by the end of 2006.

Table (9-9) below illustrates the position of Sudan external obligations for the year 2006 and 2007.

Table (9-9)  
**Position of Sudan External Obligations  
 for the years 2006 – 2007**

(US\$ billions)

Items	2006	2007	
	Total Obligations	Principal Amount	Total Obligations
International and Regional Institutions	4.8	3.6	5.1
Non-Paris Club Countries	11.0	4.9	11.6
Paris Club Countries	9.2	2.5	10.3
Foreign Commercial Banks	3.6	1.9	3.9
Foreign Suppliers	0.8	0.9	0.9
<b>Total</b>	<b>28.4</b>	<b>13.8</b>	<b>31.8</b>

Source: Central Bank of Sudan (External Debt Unit)

Sudan's external debt to members of the Paris Club amounted to US\$ 10.3 million at the end of 2007. Four rescheduling agreements were previously concluded with members of the Club in 1979, 1981, 1983 and 1984 respectively, that covered the amounts due until 1984 for the debts signed before the cut-off date\* 1st January, 1979, however, Sudan was unable to make use of these rescheduling agreements as they did not include any exemptions for principal or interest. Rather, Sudan failed to repay its debt and conditions of delay interest were instead applied on it. The obligations of Sudan towards the non-Paris Club Countries totaled US\$ 11.6 billion at the end of 2007, these debts are dealt with through political lobbying to obtain terms that take into consideration the economic situation of Sudan. On the other hand, there are international endeavors to convert these debts into contributions in national currency in economic and development projects.

Also, the obligations to foreign commercial banks and foreign suppliers at the end of 2007 amounted to about US\$ 3.9 billion and US\$830 million respectively. This debt is to be refinanced. A refinancing agreement was signed on 31st December 1980 concerning debts owed to the commercial banks and it was amended twice (the amendment called for adding up arrears of the principal and interest and rescheduling of these under new non-concessional conditions) Sudan did not make use of this arrangement.

\*The cut-off date means the date of calculating the position of the debts overdue, so that all the overdue amounts will be treated using conditions that are different from those signed after that cut-off-date.
